

Facundo Ezequiel Diaz

facuzero_95@hotmail.com [LinkedIn](#) – [Github](#) Argentina | Fullstack Developer

Full Stack Developer with experience in developing web applications and scalable systems. Specialized in **Front-end and Back-end technologies**, with strong knowledge of **JavaScript, TypeScript, React, Node.js, Express, NestJS, and Python**. Experienced in **database implementation and optimization, REST API development**, and creating **reusable React components**. Proficient in **content management systems** such as **WordPress** and knowledgeable in **software architecture**. Strong skills in **teamwork, problem-solving, adaptability, and agile methodologies**. **English level: B1**, with the ability to work in international environments and collaborate with multidisciplinary teams.

Professional Experience

Full stack Developer

Pochitama.dev

Ago 2023 - Jun 2025

- Develop and implement **landing pages** and **dashboards** using **Next.js**, optimizing performance through **Server-side Rendering (SSR)** and **Static Site Generation (SSG)**.
- Design and develop **REST APIs** in **NestJS**, implementing **controllers, services, and middleware** to ensure **efficiency, scalability, and security**.
- Manage and optimize the **PostgreSQL database** with **Sequelize**, ensuring **data integrity** through **migrations, relationships, and optimized queries**.
- Integrate **authentication and authorization** with **JWT and OAuth**, securing platform access and managing **user roles and permissions** effectively.

Pukara · Temporary Contract

April 2022 - September 2022

- Developed and maintained **web applications** using front-end technologies.
- Worked closely with the **design team** to create **visually appealing and functional user interfaces**.
- Participated in the **full software development lifecycle**, from **concept and design to implementation and testing**.
- Utilized **Vue.js** and **Nuxt.js** to build **interactive and responsive user experiences**.
- Integrated **third-party web services and APIs** to enhance application functionality and performance.
- Debugged and resolved **issues**, ensuring smooth and error-free application operation.

- Collaborated with other developers to maintain **high-quality code** and follow **best development practices**.
- Researched and adopted **new technologies and tools** to stay up to date with **web development trends**.

Key Achievements:

- **Optimized application performance**, reducing **load times** and improving **response speed**.

Projects:

Pet Care (Henry Bootcamp)

Ago.2024- Sep.2024

A platform for managing veterinary medical consultations, integrating a payment gateway, chatbot, and user, pet, appointment, and veterinarian management. Additionally, it includes an admin panel with CRUD functionalities.

Developed and integrated the frontend using Next.js, ensuring an optimized, responsive, and high-performance user experience.

- Designed and implemented the **backend** with **NestJS**, creating **efficient, secure, and scalable REST APIs** for platform management.
- Modeled and managed the **PostgreSQL database**, optimizing queries and ensuring **data integrity**.
- Managed **authentication and security**, implementing **JWT and OAuth strategies** to protect platform access.

Front-end: NextJS

Back-end: NestJS

Database: PostgreSQL
